

Call for Papers

University of Toronto, McMaster University and the University of Tokyo Joint Workshop

The first University of Toronto, McMaster University and the University of Tokyo Joint Workshop will be held on **June 26 (Wed.) – 28 (Fri.), 2019 at the University of Toronto & McMaster University**. The topics of the workshop are “**Materials and Processes for a Sustainable World**”, “**Energy for the Future**” and “**Engineering for a Brighter Tomorrow**”. Oral presentations by faculty members, poster presentations by graduate students, and a Panel Discussion on collaboration will be scheduled. Those who would like to present your research at the workshop must submit a **200 word abstract** to either Shinya Nagasaki or Jun Nogami, by **April 12 (Fri.), 2019**.

About 10 faculty members and 10–15 graduate students are expected to participate in the workshop from each university. Graduate students will be notified by the end of April about the acceptance of your abstract. **An Extended abstract** (letter size, 2 pages) will be requested in case of acceptance, which must be prepared by **May 7 (Tue.), 2019**.

Important Dates

April 12, 2019	200 Word Abstract deadline (all presenters)
May 7, 2019	Extended Abstract deadline (graduate students)
