

Arun Majumdar: Five Grand Challenges in Thermal Science and Engineering for Deep Decarbonization

Wednesday, April 29
10:00am-11:00am EDT
(14:00-15:00 GMT)

23:00-24:00 JST

Join Arun Majumdar from Stanford University for a talk on the five grand challenges in thermal science and engineering for deep decarbonization followed by a panel discussion with:

- Arun Majumdar, Stanford University
- Ravi Prasher, Lawrence Berkeley National Laboratory
- Asegun Henry, MIT

If you want to join the seminar, please tell your affiliation to GMSI Office <office[at]gmsi.t.u-tokyo.ac.jp> by April 29, 5 pm (JST). We will let you know Zoom Webinar Link.

About Arun Majumdar

Majumdar is the Jay Precourt Provostial Chair Professor at Stanford University, a faculty member of the Departments of Mechanical Engineering and Materials Science and Engineering and co-Director of the Precourt Institute for Energy. He was founding director of the US Advanced Research Projects Agency - Energy (ARPA-E), and served as Vice President for Energy at Google. He is a member of the US National Academy of Engineering and a Fellow of American Academy of Arts and Sciences.
