

2012 GMSI International Workshop on Numerical Simulations of Fluid/Thermal Systems

March 16–20, 2012

Stockholm, Sweden
Department of Mechanics

Research topics:

Convective heat and mass transfer
Fluid mechanics at free surfaces
Thermocapillary convection
Phase change simulations

Delft, Netherlands
Engineering Thermodynamics group

Research topics:

Heat and mass transport in nanoscale systems
Numerical modeling of molecular adsorption
Transport properties of ionic liquids
Self-assembly of nanocrystals

To be eligible to attend you must have:

- a related research topic
- sufficient English ability
- support from your advisor

To apply, send a half-page outline of your research topic to
2012-gmsi-workshop@mechasys.jp

Application deadline: Friday, Feb. 3, 2012

*Travel expenses will be covered by GMSI.

**Annual RA travel restrictions do not apply to this workshop.
