**REGISTER [HERE](#):**

Join Publisher Lauren Carter for a seminar on how to get published in international scientific peer-reviewed journals.

This seminar will cover:

- Introduction to IOP Publishing and environmental research journals
- How to choose a journal
- Writing and submitting an article
- Peer review processes and models
- Post-publication promotion

Lauren Carter has been a Publisher at IOP Publishing for 8 years, working on the development and success of flagship journal *Environmental Research Letters*, and other new launches; *Environmental Research: Infrastructure and Sustainability*, and *Environmental Research: Water*.

IOP Publishing is a society-owned scientific publisher. 100% of profit goes towards public and scientific good.
