

for Non-Japanese Students

Insight into Rohto life

 A guide way to **ROHTO** pharmaceutical Co.,Ltd.

Date: Jan 14, 2022 (fri) 13:00~

 Registration
Deadline
Jan 7

※ It will be organized over Zoom meeting

This is a great opportunity to experience the daily life of a Rohto employee while learning more about our core values and the roles and responsibilities of R&D positions!!

ROHTO Pharmaceutical Co., Ltd is a multinational company renowned for its fast-moving consumer goods and OTC drugs. Headquartered in Ikuno-ku, Osaka, Japan, with various domestic and overseas subsidiaries. Although we were initially known for OTC drugs, part of our DNA is to do the unexpected, and therefore we pursue businesses not limited to pharmaceutical operations.

Our devotion to meet and exceed customer expectations is the core of Rohto's business, which has been our main motivator and guidance throughout these years. Recently we announced our comprehensive management vision 2030, establishing the core areas we want to strengthen by 2030. To accomplish this, we are seeking people who can support and accelerate the growth of Rohto. With our spirit of "NEVER SAY NEVER" we strive to make every individual, and society healthier.
